PROFESSIONAL OBJECTIVE

A motivated Software Engineering graduate with a strong foundation in programming, IT support, and applied Artificial Intelligence tools. I am seeking an entry-level opportunity in the AI or IT field where I can apply my technical knowledge to solve real-world problems and support digital transformation. My goal is to grow within a forward-thinking organization aligned with **Saudi Vision 2030**, particularly in advancing Artificial Intelligence, innovation, and smart technology solutions.

EDUCATION

Bachelor's Degree in Software Engineering
University of Hail – Hail, Saudi Arabia
Graduation Year: 2025

EXPERIENCE

Cooperative Training – IT Department King Khalid Hospital (KKH) – Hail, Saudi Arabia
June 2025 – December 2025

- Provided technical support for hospital staff by diagnosing and resolving software and hardware issues.
- Installed, configured, and maintained operating systems and system utilities to improve device performance.
- Identified and resolved hardware issues including PSU, CPU, and GPU malfunctions.
- Addressed system slowness, software glitches, and performance-related issues.
- Applied Artificial Intelligence tools to improve troubleshooting efficiency and workflow productivity.

PROJECT

Graduation Project | IT Technical Support Management Website
King Khalid Hospital (KKH) – 2025

- Designed and developed a simple, modern web-based technical support system for the IT department.
- Built the backend using Node.js and Express.js, with HTML and JSON used for data handling.
- Created a centralized platform for submitting, tracking, and managing employee device-related complaints.
- Improved communication between IT technicians, employees, departments, and administration.
- Enabled accurate documentation of maintenance requests from submission to resolution.
- Reduced processing time and increased efficiency in administrative and maintenance operations.
- Generated statistical reports to support management decision-making and service improvement.
- Enhanced employee satisfaction and trust in IT maintenance services.

CERTIFICATES & TRAINING COURSES

- **Excel Essential Training (Microsoft 365) – LinkedIn Learning, Jan 2026**
- **JavaScript (Beginner to Advanced) – Tuwaiq Academy, 2026**
- **Node.js (Beginner) – Tuwaiq Academy, 2026**

SKILLS

Soft Skills

- Communication
- Problem Solving
- Adaptability
- Leadership - Teamwork
- Critical Thinking

Technical Skills

- MS Office
- Remote Access Tools
- Disk Cloning and System Utility Applications
- Hardware Troubleshooting

LANGUAGES

- Arabic
- English
